

REMARKS

The present amendment corrects a clerical error in the Examiner's Amendment. The Examiner's Amendment intended to amend claim 1 to include the subject matter of original claim 6 which recited a particle size of "1.0-4.0 μm ". The Examiner's Amendment inadvertently inserted the particle size of "1.0-4.9 μm ".

Since this amendment only corrects an obvious clerical error by the Examiner, Applicants request this amendment be entered.

Respectfully submitted,

Garrett V. Davis
Reg. No. 32,023
